This package includes a physical copy of Mechanics for Engineers, 13th edition, SI Edition, by R.C. Hibbeler as well as access to the eText and MasteringEngineering and the Study Pack. In his revision of Mechanics for Engineers, 13e, SI Edition, R.C. Hibbeler empowers students to succeed in the whole learning experience. Hibbeler achieves this by calling on his everyday classroom experience and his knowledge of how students learn inside and outside of lectures. MasteringEngineering SI, the most technologically advanced online tutorial and homework system available, can be packaged with this edition. MyLab and Mastering from Pearson improve results for students and educators. Used by over ten million students, they effectively engage learners at every stage. With proven success, Mastering has helped students make strides in learning for over 10 years. MasteringEngineering has immersive content and tools that are so engaging that one educator said, Using MasteringEngineering has substantially changed student engagement in the homework process. Rather than some copying directly from a solutions manual, students now have to work through the problems. The tutorials in MasteringEngineering do an excellent job of reinforcing classroom learning. With MasteringEngineering, students gain knowledge that they will use throughout their lives, and universities gain a partner deeply committed to helping students and educators achieve their goals.
