

The Plot Dot: A Visual Guide to Plotting Unforgettable Scenes: An Adult Coloring Book For Authors

An Adult Coloring Book for Authors! This book will help you paint powerful visual scenes that stick with readers long after they're finished your book. The techniques described within are simple and easy to use. Think of this as a guided coloring book adventure. YOUR adventure.

There are lots of systems and guides to plotting, but if you're like me you have journals filled with notes, scenes and description... it can get overwhelming. I've based this book on traditional three-act story architecture, but it's greatly simplified. Plotters and pantsers can use the guided exercises to gain greater visual clarity and build more meaningful scenes with resonance. This book will help you get organized and unlock hidden potential in your scenes that you didn't know was there, by going beyond words and focusing on drawing and coloring your scenes until you have a full outline. This book makes an excellent workbook for writing retreats, is simple enough for children to use (it's never too early to write your first novel), and introduces a new, and hopefully useful, way to organize your novel, improve your writing, and create unforgettable scenes that will make a deep and lasting impact.

Use it yourself to improve your own writing, or give it to a struggling writer who's having trouble finishing their novel. You can also give it to artists or creative people who are interested in writing a book but have no idea where to begin. PS) This isn't a normal adult coloring book, with lines to color... this is more like a guided exercise book with blank pages for you to sketch your scenes in. If you have feedback on how I can make it better/more useful, please let me know and I'll update it!
