

Racism and Everyday Life: Social Theory, History and Race

What does it mean to talk about everyday racism, and why should we do so? *Racism and Everyday Life* brings together the sociologies of racism and everyday life in a new way in order to reflect on these questions. Smith argues that racism and everyday life are not just act and context respectively, but rather they are part of the making of each other. Using a variety of historical and contemporary examples, this book draws on the pioneering insights of W.E.B. Du Bois and other writers in order to explore the interwoven relationship between racism and the everyday.
